

Bullet Strategy

- ✓ This strategy is a simple 1:3RR take profit system
- ✓ This strategy has a strict kill zone so you don't have to sit on the charts all day long

1:3RR Mechanical - No Daily Bias Needed

Pre-Requisites	Asia Range (7PM-12AM EST) (12AM-5AM GMT) LDN Killzone (3AM-5AM EST) (8AM-10AM GMT)
1. Asia range must be tight and not too expansive (check the Asia ranges in previous 2 weeks to compare) 2. During the sweep after Asia session, it must be within one Asia range standard deviation away (maximum amount) 3. The trade setup will happen in the LDN kill zone (sometimes, if the setup is perfect, you can extend to an hour later too) 4. The best types of trades happen earlier in the session as it will be able to catch the LDN expansion	Step by Step Strategy STEP 1 Wait for Asia session to form as a consolidation STEP 2 Wait for ONLY one sweep of Asia range (2 is not allowed) STEP 3 Wait for a minor CHoCH STEP 4 Wait for a pullback to the recent high / low STEP 5 - Golden Confirmation Wait for a strong engulfing candle to form and execute the trade
